

Collaborative Learning Solutions for Education

As the need for more collaborative learning spaces grows, so does the demand for technology in the classroom.

Our interactive solutions enable you to deliver immersive learning and to improve student engagement, performance and learning experiences.

ActiveVision is ready to work with you to design, deploy and support you with the best solution for your learning spaces.

For further information, please go to our website: www.activevision.co.nz
or phone us on **0800 368 474**.

Promethean ActivPanels

Available in 65" 4k, 75" 4k, & 86" 4k The award-winning **ActivPanel** is the premium interactive display for immersive learning, providing a tablet-like experience at the front of the classroom or meeting room.

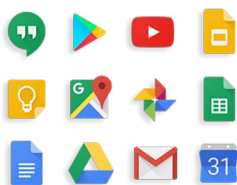

Innovative InGlass™ technology delivers the industry's most natural writing experience for teachers and students to collaborate with ease and businesses to present and share ideas seamlessly.

ActivInspire

ActivInspire is licenced for use on any Promethean hardware and is packed with a wealth of interactive tools and resources that enable graphics, sound and video clips to be utilised in lessons.

A new licence for use of ActivInspire is provided with every new Promethean ActivPanel.

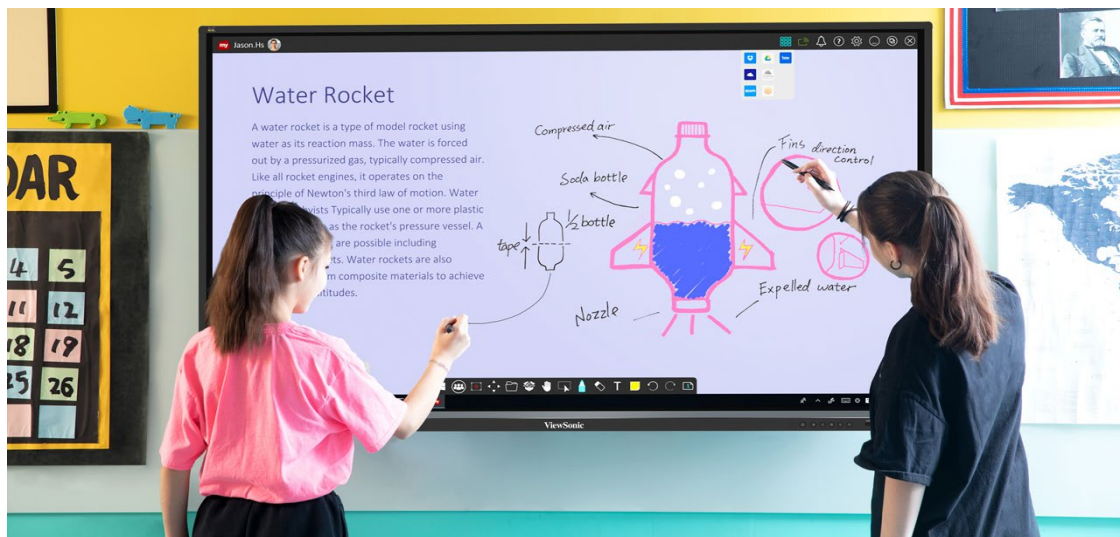

Promethean Chromebox

The Chromebox is the perfect solution for extending an existing Chrome OS ecosystem to the ActivPanel, providing certified and seamless access to apps from the Google Play Store.

ViewSonic Interactive ViewBoards

Available in 55" 4k, 65" 4k, 75" 4k, 86" 4k & 98" 4k ViewSonic ViewBoards are our series of front of class interactive flat panel displays.

We aim to offer the right mix of EdTech elements combining security, flexibility and user-centric applications for modern pedagogies; giving teachers the digital tools they need and freeing up their valuable time and resources.

ViewSonic Education Display

Available in 43", 55", 65", 75" & 86" The wireless presentation display (WPD) is a new class of collaborative display.

Between a classroom TV and a more advanced interactive whiteboard, WPDs offer an affordable alternative to schools - however, comes with features such as Education Notifications & Emergency Messaging and a 3-year Warranty/Support Care Pack. The New WPD is the perfect TV/Display for Classrooms.

myViewBoard

Prepare, Present, Participate

The myViewBoard™ ecosystem delivers a complete suite of tools that make content creation intuitive.

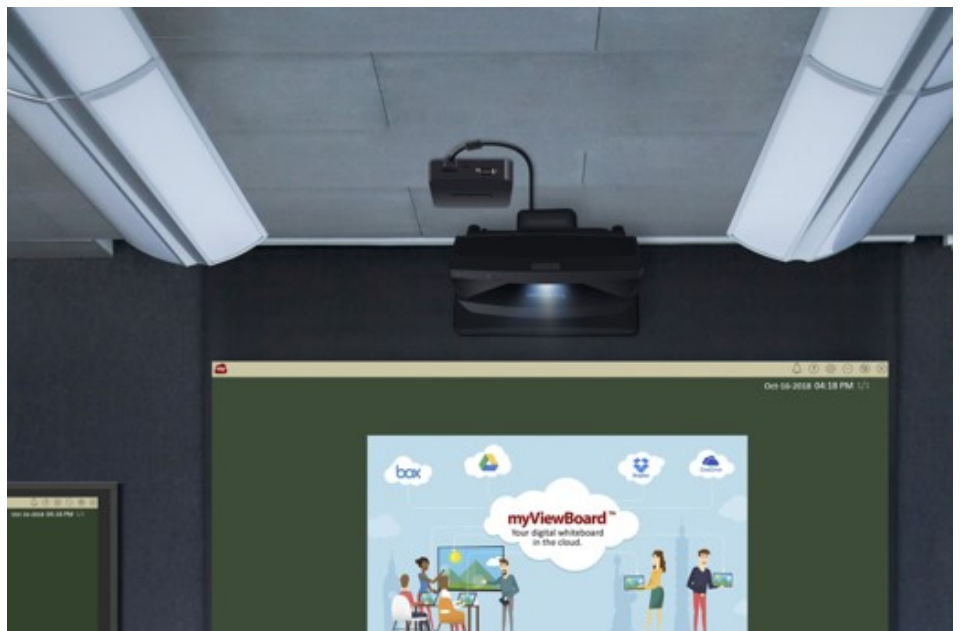

Teachers can quickly create lessons using the familiar tools that are integrated into myViewBoard, allowing the presentation of content to focus on student needs.

myViewBoard Box

Designed as a companion device for the myViewBoard™ digital whiteboarding ecosystem, myViewBoard Box instantly transforms any touch display into a digital whiteboard. That means that any interactive projector, interactive flat panel, or touch monitor, can be used as a content sharing hub for remote collaboration or distance learning.

With the built-in myViewBoard Display app for Android, and a provided security code, myViewBoard Box can mirror any myViewBoard canvas and share content from anywhere in the world.

CatchBox

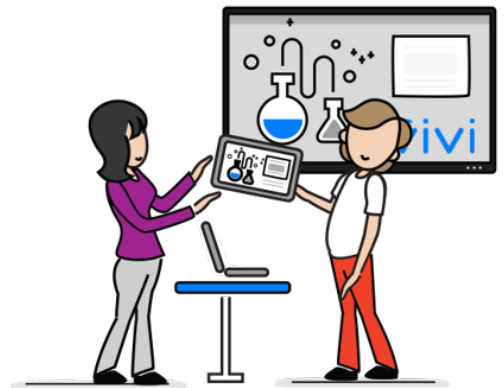

The Engagement Microphone - Catchbox encourages everyone to join the conversation. The unique fun-factor of catching and throwing breaks down barriers and allows people to feel confident when sharing their ideas.

ViVi Wireless Presentation Solution

Vivi's classroom management tools transform the classroom into an interactive, collaborative learning space, driving increased engagement and productivity.

With our wireless presentation solution, teachers are now given the freedom to navigate their classroom with no restrictions, engaging with both the screen and the students from any point in the room, increasing student engagement.

Apps and Online Digital Tools

With our highly connected and digital world, educators are increasingly finding easier and faster ways to use technology.

Apps and Online Digital Tools are a great way to capitalise on technology.

Our team will be happy to help you find the App or Online Tool that best lets you achieve the outcomes you require.

Projectors

Presentation, Interactive or large venue, projectors provide flexibility and features to overcome virtually any installation challenge.

Brilliant video and images for education, meetings, collaboration or large rooms and venues.

Interactive Projectors you can turn your conventional whiteboard or magnetic whiteboard into a 'PC-free' interactive workspace. Allows full wireless collaboration with other devices.

Make almost any wall or table top interactive with these interactive projectors. Enjoy PC Free or PC Interactivity with dual pen functionality, so two users can annotate simultaneously.

Large Venue Projectors From lecture theatres to gymnasiums to assembly halls, large venue projectors provide powerful output with brilliant colour and amazing image quality.

There are several options available so please just ask us if you would like to know more.

Interactive Digital Signage

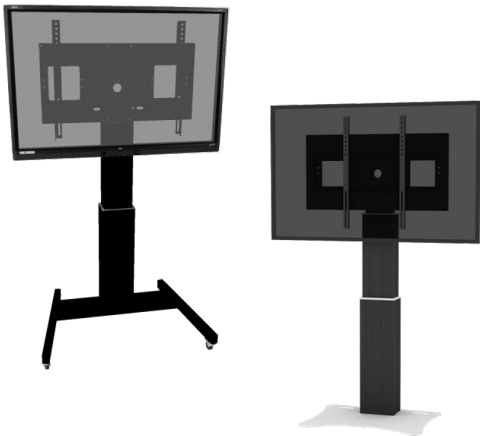

Interactive digital signage is ideal for public locations where a Finger can be used as a pointer to manipulate images, zoom in and out as well as perform many other touch gestures; much like you would with a smart-phone.

Trolleys and Mounts

Fixed or height-adjustable, wall-mounted or fully mobile. All trolleys and mounts provide ease of use, flexibility and complement the technology they support.

Perfect ergonomics designed to withstand intensive daily use.

Mobile Trolleys

Fixed height, electrical height-adjustable, tilting and twin screen options available. Fit additional accessories such as camera and Tiny PC for a fully contained mobile solution.

Position the display panel to suit the audience and classroom.

Wall Mounts

Heavy duty wall mounts in a variety of options to suit the environment.

Fixed, swivel and height adjustable available for all sizes of screens.

Spring locking and fully secure mounts available for a multitude of wall surfaces.

Video Conference Cameras

ActiveVision supplies a range of video cameras for use in Education, Conference Rooms and other Workspaces.

Logitech Meetup Conference Camera - 4K Ultra HD, Super Wide 120 Degree Field Of View, 3 Built-in Microphones, Custom Tuned Speaker, All in One Design, Expansion Microphone Ready.

Windows Collaboration Displays

Don't Forget Your School Meeting Spaces..

Built for the modern workplace, our fully integrated solutions enables team members to easily start meetings and collaborate together across multiple sites.

Our solutions allow for quick and simple connectivity that is flexible to use with any Video Conferencing Software. We also have an extensive range of software such as Quicklaunch that gives you unmatched control of your Boardroom, Cameras, Microphones, Sound and Speaker Integration and Height Adjustable, Mobile and Fixed Mount options.

Talk to us today about your meeting spaces.

ActiveVision is ready to work with you to design, deploy and support your school with the best solution.
